### Skills

- 6+ months Web Developer experience.
- Proficient in HTML, CSS, JavaScript, jQuery, ReactJS, Express, MySQL, MongoDB, REST APIs.
- Strong communication, interpersonal, intuitive, planning, analysis, troubleshooting skills.
- Bilingual (English, Spanish).

### Projects

- **SubAway** - <https://subaway.herokuapp.com/>  
Full Stack Web app built with the MERN stack. SubAway users can manage their subscriptions to avoid overpaying for something they no longer use.  
**Technologies:** HTML, CSS, JavaScript, React, NodeJS, Express, MongoDB, MD Bootstrap, Auth0, Axios.
- **Personal Cloud Storage** - <https://cloud-personal-storage.web.app/login>  
React app powered with Firebase authentication, storage, and Firestore. A place to store files on the cloud to be accessed anywhere.  
**Technologies:** HTML, CSS, JavaScript, React, React-Bootstrap, Firebase.
- **Spotify Lyrical** - <https://spotify-lyrical.herokuapp.com/>  
React Express app that uses the Spotify API to search for songs and get song information to look for its lyrics with the lyrics-finder node package and play the song with the react-spotify-web-playback node package.  
**Technologies:** HTML, CSS, JavaScript, NodeJS, Express, React, Axios, React-Bootstrap, Spotify API, lyrics-finder, react-spotify-web-playback.
- **Wine & Dines** - <https://andrewrb22.github.io/-theFederationOfCoders-/>  
Food and Wine pairing Web app built with HTML, CSS, JavaScript, and jQuery. Choose from one of our four proteins to build a random recipe and have it paired with a group of wines that complement this dish.  
**Technologies:** HTML, CSS, JavaScript, jQuery, Bootstrap, Spoonacular API.
