Projects

- **Recipe Book** - https://recipebook-2096c.web.app/
  Full Stack web app built with the MERN stack. Users who need inspiration to cook a meal can search for random recipes using ingredients or types of cuisine. If they would like to save the recipes they're welcomed to create an account and save the recipe for later. Recipe information is obtained through the Spoonacular API.
  Technologies: SCSS, React, Node, Express, MongoDB, REST APIs, Spoonacular API.

- **SubAway** - https://subaway.herokuapp.com/
  Full Stack web app built with the MERN stack. SubAway users can manage their subscriptions to avoid paying for subscriptions they no longer use.
  Technologies: CSS, React, Node, Express, MongoDB, REST APIs, MD Bootstrap, Auth0.
  Repo: https://github.com/irasar/SubAway

- **Spotify Lyrical** - Spotify Lyrical (spotify-lyrical-59138.web.app)
  React Express app that uses the Spotify API to search and play songs and my own web scraper to search for lyrics of the selected song. Unfortunately, due to recent Spotify T.O.S changes, users can only use this web app if they own Spotify Premium. Check repo for video demonstration.
  Technologies: CSS, React, Bootstrap, Node, Express, Spotify API, Firebase.

- **Personal Cloud Storage** - https://cloud-personal-storage.web.app/login
  React app powered with authentication and storage from Firebase and Firestore. Created this for a personal place to store my files in the cloud, but you're more than welcomed to use this space too!
  Technologies: CSS, React, Bootstrap, Firebase.
  Repo: https://github.com/tiroxxx/CloudPersonalStorage
